

How to Setup Avaya Workplace for Windows 11

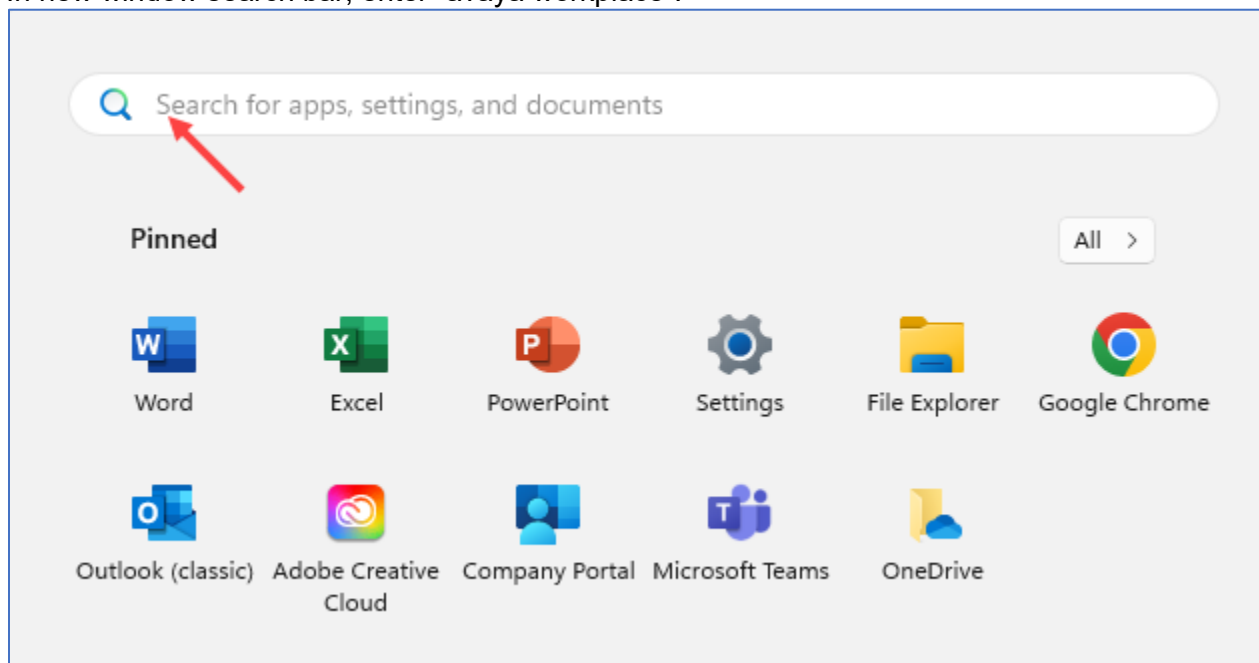

Before you setup and use Avaya Workplace, you need

- to be logged into a USNH Institution VPN and
- have SENTRY Gatekeeper running.

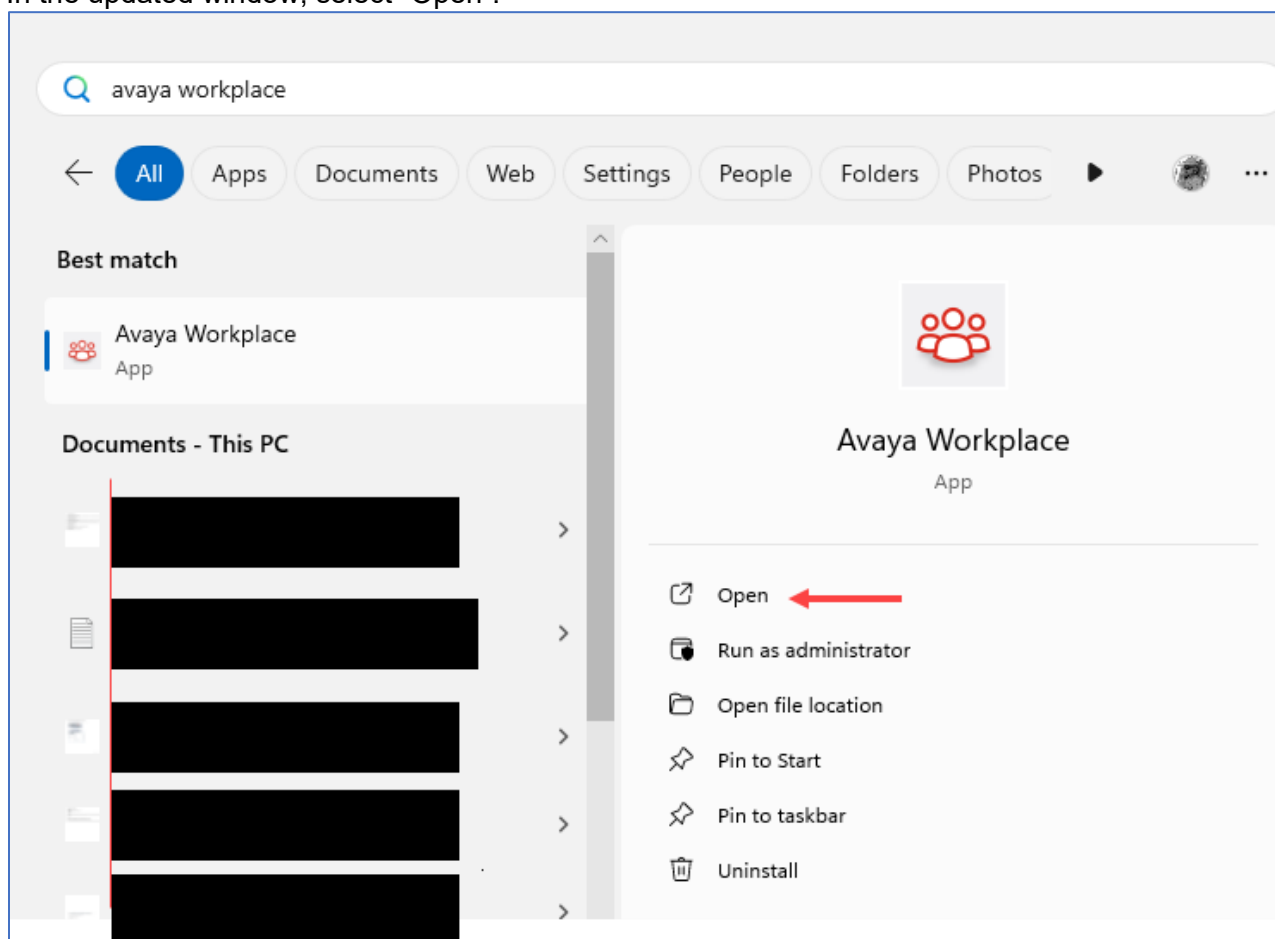

1. In the left lower corner on your desktop, select the “Start menu” -icon.

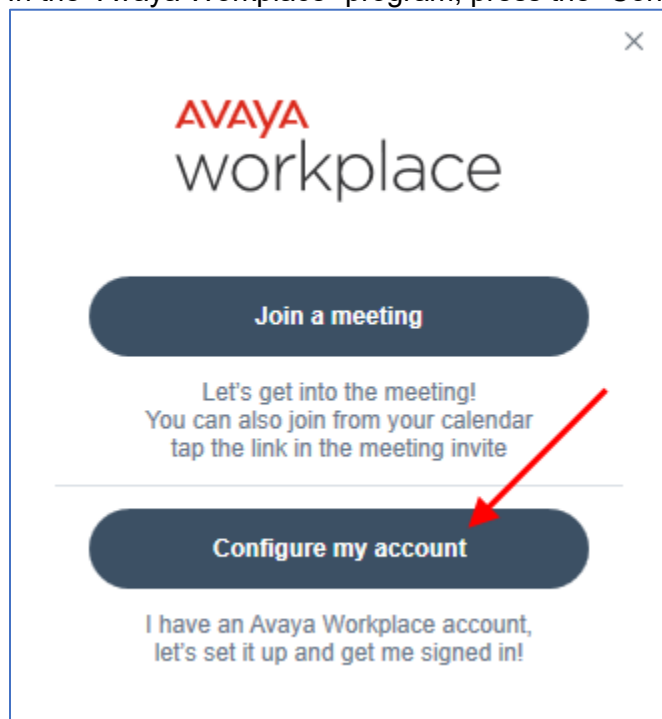

2. In new window search bar, enter “avaya workplace”.

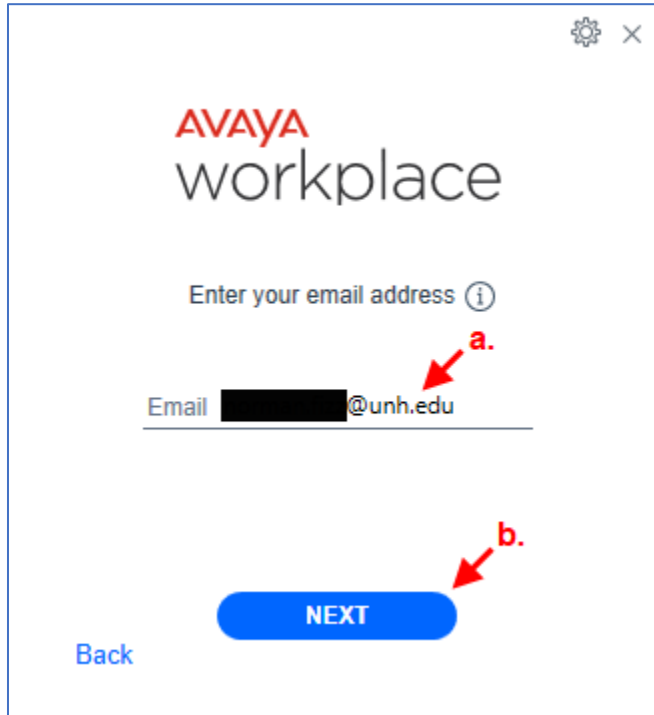

3. In the updated window, select “Open”.

4. In the “Avaya Workplace” program, press the “Configure my account” – button.

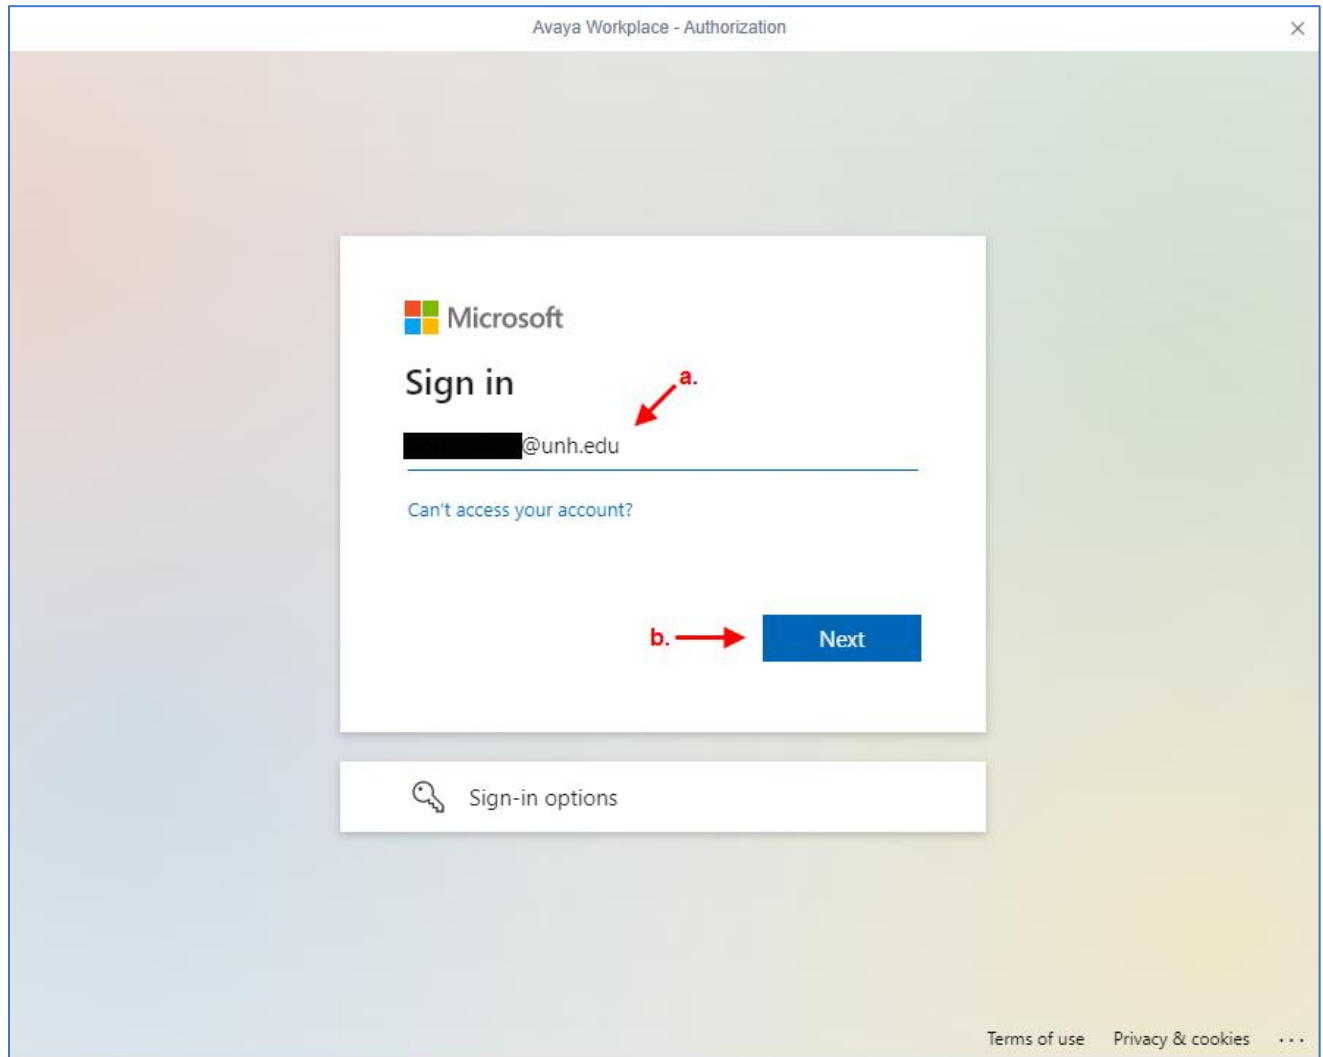

5. In the updated window.
 - a. Enter your UNH e-mail address.
 - b. Press the “NEXT” - button.

The screenshot shows a web browser window with the AVAYA workplace logo at the top. Below the logo, there is a text prompt "Enter your email address" with an information icon. A text input field contains the email address "Email [redacted]@unh.edu". A red arrow labeled "a." points to the input field. Below the input field is a blue button labeled "NEXT". A red arrow labeled "b." points to the "NEXT" button. In the bottom left corner, there is a blue link labeled "Back". The window has a standard browser interface with a gear icon and a close button in the top right corner.

6. In the “Avaya Workplace – Authorization” window.
 - a. Enter your UNH e-mail address.
 - b. Press the “Next” – button.

7. In the updated “Avaya Workplace – Authorization” window.
 - a. Enter your UNH username.
 - b. Enter your UNH password.
 - c. Press the “Submit” – button.
